List Areas of Professional Expertise / Experience:

My career, which spans 36 years of company experience, was in the field of Exploration Geologist with emphasis on the minerals industry. I have worked in base and precious metal exploration during the first part of my career and industrial mineral exploration during the second part. Most of my experience has been in the western portion of North America. Late in my career, I worked international with experience in Mexico, South America and various parts of Europe.

My most recent experience has been in Borate exploration both within the US and internationally.

I am presently working as a Geologic Consultant to all parts of the mineral industry.
